

High Quality Digital Print Media

DESCRIPTION

3.6 Mil High Quality Matte White Promotional Vinyl with solvent base clear permanent adhesive. Medium-Term outdoor & indoor applications. Print receptive top coating allows for printing using a variety of Solvent, Eco-Solvent and UV printers.

APPLICATIONS

Excellent print resolution and Ink adhesion. Good durability without clear coating or overlamine. Lamination is recommended for protection against abrasion or chemical deterioration. Great for for print and cut applications with a low shrinkability. Up to 4 years indoor & outdoor. Can be used for indoor display, product labels as well as some outdoor use and general signage. Available in various widths of 50 yds rolls.

PRINTABILITY

Printable using a variety of Solvent, Eco-Solvent and UV wide format ink jet printers such as Mimaki, Roland and other similar ink jet printers.

Important: Media should always be tested by user for compatibility with their printer and Ink combination
